Overview

The Level 4 Diploma in Cyber Security is a UK-regulated qualification that develops learners' understanding of the fundamental principles of information technology, network defense, and data protection.
It provides a strong foundation in cyber security concepts, system management, and risk assessment — preparing learners for academic progression and entry-level professional roles in IT support, network security, and cyber defense operations.

AIM

The program aims to provide learners with a comprehensive foundation in cyber security, enabling them to understand key IT and security concepts, apply modern tools and techniques to protect digital systems, and develop strong analytical, problem-solving, and technical skills.
It also prepares participants to pursue higher academic studies or advanced professional certifications in cyber security, networking, and information technology.

OBJECTIVES

- Understanding the fundamental concepts and specialized terminology in cyber security and information technology.
- Applying modern security tools, techniques, and best practices to protect networks, systems, and data.
- Developing analytical, critical thinking, and problem-solving skills for identifying and mitigating cyber threats.
- Enhancing teamwork, communication, and technical abilities within IT and security environments.
- Preparing to pursue advanced studies or professional certifications in cyber security, networking, and information systems.

👉 Core Study Units

- Information Technology Security (20 credits)
- Principles of Computer Science (20 credits)
- Algorithms and Data Structures (20 credits)
- Computer Networks (20 credits)
- Mathematics for Computer Science (20 credits)
- Operating Systems (20 credits)

FEES

- Installment plans are available.
- Please contact us via email or WhatsApp to receive detailed information about the tuition fees and installment options.

Study Duration and Learning Method

Study Duration and Learning Method:
Duration: 8 months
Learning Modes:
- Fully online learning
- On-campus learning
- Blended learning (a mix of face-to-face sessions and online classes)

Admission Requirements

- Applicants must be 18 years old or above.
- Hold a Level 3 Diploma or an equivalent qualification.
- The program is delivered in English. Language assessments and specialized support courses are provided for applicants who require improvement in English proficiency.

Progression Pathways

Acaemic Path

- Direct progression to Level 5 Diploma in Cyber Security
- Second year of UK undergraduate degree
- Related Cyber Swcurity fields and specializations

Career Pathway:

Graduates will be able to work in roles such as: Supervisor, Team Leader, Care Manager, or Administrator.

Accreditation and Certification

Upon successful completion of the program, graduates will receive:
- The British Applied Certificate (Higher National Certificate – HNC), issued by The British Academy for eLearning, endorsed in the UK and internationally recognized.

This provides graduates with the unique advantage enhancing their academic and professional opportunities both locally and globally.
